## 1. Legal framework

This policy has due regard to legislation including, but not limited to, the following:

- UK General Data Protection Regulation (GDPR)
- EU GDPR
- Freedom of Information Act 2000
- Limitation Act 1980 (as amended by the Limitation Amendment Act 1980)
- Data Protection Act 2018

This policy also has due regard to the following guidance:

- Information Records Management Society (IRMS) (2019) 'Information Management Toolkit for Schools'
- IRMS (2019) 'Academies Toolkit'
- DfE (2018) 'Data protection: a toolkit for schools'
- DfE (2018) 'Careers guidance and access for education and training providers'
- DfE (2021) 'Careers guidance and access for education and training providers'
- ESFA (2022) 'Record keeping and retention information for academies and academy trusts'

This policy will be implemented in accordance with the following Trust policies:

- Data Protection Policy; and
- Freedom of Information Policy

## 2. Responsibilities

The whole school has a responsibility for maintaining its records and record-keeping systems in line with statutory requirements.

The **Headteacher (HT)/Head of School (HOS)** holds the overall responsibility for this policy and for ensuring it is implemented correctly.

The **Data Protection Officer (DPO)** is responsible for the management of records at the school.

The **DPO**, in conjunction with the **HT/HOS** is responsible for promoting compliance with this policy.

The **DPO** is responsible for ensuring that all records are stored securely, in accordance with the retention periods outlined in this policy and are disposed of safely and correctly.

All staff members are responsible for ensuring that any records they are responsible for (including emails) are accurate, maintained securely and disposed of correctly, in line with the provisions of this policy.

### 3. Management of pupil records

Pupil records are specific documents that are used throughout a pupil's time in the education system – they are passed to each school that a pupil attends and includes all personal information relating to them, e.g., date of birth, home address, as well as their progress and achievements.

The following information is stored on the front of a pupil record, and will be easily accessible:

- Forename, surname, and date of birth;
- Unique pupil number; and
- Note of the date when the file was opened.

The following information is stored inside the front cover of a pupil record, and will be easily accessible:

- Any preferred names;
- Emergency contact details and the name of the pupil's doctor;
- Any allergies or other medical conditions that are important to be aware of;
- Names of people with parental responsibility, including their home address(es) and telephone number(s);
- Any other agency involvement, e.g. speech and language therapist; and
- Reference to any other linked files.

The following information is stored in a pupil record, and will be easily accessible:

- Admissions form;
- Details of any SEND;
- If the pupil has attended an early years setting, the record of transfer;
- Data collection or data checking form;
- Annual written reports to parents;
- National curriculum and agreed syllabus record sheets;
- Notes relating to major incidents and accidents involving the pupil;
- Any information about an EHC plan and support offered in relation to the EHC plan;
- Medical information relevant to the pupil's on-going education and behaviour;

- Any notes indicating child protection disclosures and reports;
- Any information relating to exclusions;
- Any correspondence with parents or external agencies relating to major issues, e.g. mental health;
- Notes indicating that records of complaints made by parents or the pupil; and
- SATs results.

The following information is subject to shorter retention periods and, therefore, will be stored separately in a personal file for the pupil in the **school office**:

- Attendance registers and information;
- Absence notes and correspondence;
- Parental and, where appropriate, pupil consent forms for educational visits, photographs and videos, etc.;
- Accident forms – forms about major accidents will be recorded on the pupil record;
- Consent to administer medication and administration records;
- Copies of pupil birth certificates, passports etc.;
- Correspondence with parents about minor issues, e.g. behaviour;
- Pupil work; and
- Previous data collection forms that have been superseded.

Hard copies of disclosures and reports relating to child protection are stored in a sealed envelope, in a securely locked filing cabinet in the **school office** – a note indicating this is marked on the pupil's file.

Hard copies of complaints made by parents or pupils are stored in a file in the **HT/HOS office** – a note indicating this is marked on the pupil's file.

Actual copies of accident and incident information are stored separately on the school's management information system and held in line with the retention periods outlined in this policy – a note indicating this is marked on the pupil's file. An additional copy may be placed in the pupil's file in the event of a major accident or incident.

The school will ensure that no pupil records are altered or amended before transferring them to the next school that the pupil will attend.

The only exception to the above is if any records placed on the pupil's file have a shorter retention period and may need to be removed. In such cases, the **DPO** will instruct the school to remove these records.

The school will not keep any copies of information stored within a pupil's record unless there is ongoing legal action at the time during which the pupil leaves the school. The responsibility for these records will then transfer to the next school that the pupil attends.

The school will, wherever possible, avoid sending a pupil record by post. Where a pupil record must be sent by post, it will be sent by registered post, with an accompanying list of the files included. The school it is sent to is required to sign a copy of the list to indicate that they have received the files and return this to the school.

Consents relating to school activities	While pupil attends the school	Secure disposal

## 11. Retention of emails

Group email addresses will have an assigned member of staff who takes responsibility for managing the account and ensuring the correct disposal of all sent and received emails.

All staff members with an email account will be responsible for managing their inbox.

The school's expectations of staff members in relation to their overall conduct when sending and receiving emails is addressed in the school's **Digital Safeguarding Policy**.

Staff members will be aware that the emails they send could be required to fulfil a SAR or freedom of information (FOI) request. Emails will be drafted carefully, and staff members will review the content before sending.

Individuals, including children, have the right to submit an SAR to gain access to their personal data to verify the lawfulness of the processing – this includes accessing emails.

All SARs will be handled in accordance with the school's **Data Protection Policy**.

FOI requests will be handled in accordance with the school's **Freedom of Information Policy**.

When handling a request for information, the **DPO** will speak to the requestor to clarify the scope of the request and whether emails will be required to fulfil the SAR or FOI request.

Where an SAR has been made electronically, the information will be provided in a commonly used electronic format.

All requests will be responded to without delay and at the latest, within one month of receipt.

If a request is manifestly unfounded, excessive, or repetitive, a fee will be charged. All fees will be based on the administrative cost of providing the information.

Where a request is manifestly unfounded or excessive, the school holds the right to refuse to respond to the request. The individual will be informed of this decision and the reasoning behind it, as well as their right to complain to the supervisory authority and to a judicial remedy, within one month of the refusal.

Staff members will discuss any queries regarding email retention with the **DPO**.

## 12. Identifying information

Under the GDPR, all individuals have the right to data minimisation and data protection by design and default – as the data controller, the school ensures appropriate measures are in place for individuals to exercise this right.

Once an individual has left the school, if identifiers such as names and dates of birth are no longer required, these are removed or less specific personal data is used, e.g., the month of birth rather than specific date – the data is blurred slightly.

Where data is required to be retained over time, e.g., attendance data, the school removes any personal data not required and keeps only the data needed – in this example, the statistics of attendance rather than personal information.

### **13. Storing and protecting information**

The **DPO** will undertake a business impact assessment to identify which records are vital to school management and these records will be stored in the most secure manner.

Where possible, backed-up information will be stored off the school premises, using a central back-up cloud service. The **DPO** will ensure that the location of the cloud storage, back-up frequency and the security offered is appropriate for the information and records stored on it.

Confidential paper records are kept in a locked filing cabinet, drawer or safe, with restricted access.

Any room or area where personal or sensitive data is stored will be locked when unattended.

Confidential paper records are not left unattended or in clear view when held in a location with general access.

Memory sticks are not used to hold personal information under any circumstances.

All electronic devices are password-protected to protect the information on the device in case of theft.

Staff do not use their personal laptops or computers for school purposes and all members of staff are provided with their own secure login and password.

Personal information is never put in the subject line of an email.

Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients.

Where personal information that could be considered private or confidential is taken off the premises, to fulfil the purpose of the data in line with the GDPR, either in an electronic or paper format, staff take extra care to follow the same procedures for security, e.g., keeping devices under lock and key. The person taking the information from the school premises accepts full responsibility for the security of the data.

If documents that have been taken off the school premises will be left unattended, the staff member will leave the documents in the locked boot of a car or keep them on their person.

Before sharing data, staff always ensure that:

- They have consent from data subjects to share it.
- Adequate security is in place to protect it.
- The data recipient has been outlined in a privacy notice.

Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.

The school takes its duties under the GDPR seriously and any unauthorised disclosures may result in disciplinary action.

The **DPO** is responsible for ensuring continuity and recovery measures are in place to ensure the security of protected data.

#### 14. Accessing information

We are transparent with data subjects, the information we hold and how it can be accessed.

All members of staff, parents of registered pupils and other users of the school, e.g., visitors and third-party clubs, are entitled to:

- Know what information the school holds and processes about them or their child and why.
- Understand how to gain access to it.
- Understand how to provide and withdraw consent to information being held.
- Understand what the school is doing to comply with its obligations under the GDPR.

All members of staff, parents of registered pupils and other users of the school and its facilities have the right, under the GDPR, to access certain personal data being held about them or their child.

Personal information can be shared with pupils once they are considered to be at an appropriate age and responsible for their own affairs; although, this information can still be shared with parents.

Pupils who are considered by the school to be at an appropriate age to make decisions for themselves are entitled to have their personal information handled in accordance with their rights.

The school will adhere to the provisions outlined in the school's **Data Protection Policy** when responding to requests seeking access to personal information.

## 15. Digital continuity statement

Digital data that is retained for longer than six years will be identified by the DPO and named as part of a Digital Continuity Statement. The data will be archived to dedicated files on the school's server, which are password-protected – this will be backed-up in accordance with Section 12 of this policy.

Memory sticks are never used to store digital data, subject to a Digital Continuity Statement.

The ICT technician will review new and existing storage methods [annually](#) and, where appropriate, add them to the Digital Continuity Statement.

The following information will be included within the Digital Continuity Statement:

- A statement of the business purposes and statutory requirements for keeping the records
- The names of the individuals responsible for long term data preservation
- A description of the information assets to be covered by the digital preservation statement
- A description of when the record needs to be captured into the approved file formats
- A description of the appropriate supported file formats for long-term preservation
- A description of the retention of all software specification information and licence information
- A description of how access to the information asset register is to be managed in accordance with the UK GDPR

## 16. Information audit

The school conducts information audits on an [annual](#) basis against all information held by the school, to evaluate the information the school is holding, receiving and using, and to ensure that this is correctly managed in accordance with the UK GDPR. This includes the following information:

- Paper documents and records
- Electronic documents and records
- Databases
- Microfilm or microfiche
- Sound recordings
- Video and photographic records
- Hybrid files, containing both paper and electronic information
- Knowledge
- Apps and portals

The information audit may be completed in a number of ways, including, but not limited to:

- Interviews with staff members with key responsibilities – to identify information and information flows, etc.
- Questionnaires to key staff members to identify information and information flows, etc.
- A mixture of the above.

The DPO is responsible for completing the information audit. The information audit will include the following:

- The school's data needs
- The information needed to meet those needs
- The format in which data is stored
- How long data needs to be kept for
- Vital records status and any protective marking
- Who is responsible for maintaining the original document

The DPO will consult with staff members involved in the information audit process to ensure that the information is accurate.

Once it has been confirmed that the information is accurate, the DPO will record all details on the school's Data Asset Register.

An information asset owner is assigned to each asset or group of assets. They will be responsible for managing the asset appropriately, ensuring it meets the school's requirements, and for monitoring risks and opportunities.

The information displayed on the Data Asset Register will be shared with the headteacher to gain their approval.

## **17. Disposal of data**

Where disposal of information is outlined as standard disposal, this will be recycled appropriate to the form of the information, e.g. paper recycling, electronic recycling.

All records containing personal or sensitive information will be made either unreadable or unreconstructable.

Where disposal of information is outlined as secure disposal, this will be shredded or pulped. Electronic information will be scrubbed clean and, where possible, cut, archived or digitalised. The DPO will keep a record of all files that have been destroyed.

Where the disposal action is indicated as reviewed before it is disposed, the DPO will review the information against its administrative value – if the information should be kept for administrative value, the DPO will keep a record of this.

If, after the review, it is determined that the data should be disposed of, it will be destroyed in accordance with the disposal action outlined in this policy.

Where information has been kept for administrative purposes, the DPO will review the information again after **three** years and conduct the same process. If it needs to be destroyed, it will be destroyed in accordance with the disposal action outlined in this policy. If any information is kept, the information will be reviewed every **three** subsequent years.

Where information must be kept permanently, this information is exempt from the normal review procedures.

Records and information that might be relevant to the Independent Inquiry into Child Sexual Abuse (IICSA) will not be disposed of or destroyed.

## **18. School closures and record keeping**

### **Academy closure**

If the academy is closing, the Trust will follow the DfE's guidance on what should happen to records retained by the Trust, which can be found in the DfE's ['Record keeping and retention information for academies and academy trusts'](#) guidance.

### **Sale or re-use of the site**

If the school site is being sold or re-allocated to another use, the LA will take responsibility for the records from the date the school closes.

### **Merger of schools**

If the school merges with another school to create one school, the new school will be responsible for retaining all current records originating from the former schools.

The DPO will determine the outcome of each group of records; these outcomes are as follows:

- Securely destroy all records that are expired and due for disposal, in accordance with the retention periods outlined in this policy.
- Transfer to the successor school or academy all records that are current and that will be required by the new school or academy.

- Transfer to the LA all records that are dormant but still need to be retained to comply with legal and business retention requirements.
- Transfer to the local record office any records with historical value.

### **Managing records**

The DPO will identify which records need to be destroyed or transferred to the relevant body – they will allocate personnel as necessary to sort through records.

The DPO will notify the other organisations as soon as possible so that necessary disposal, storage and transfer arrangements can be made. The school's ICT provider will also be notified so that arrangements can be made to ensure the safe transfer or deletion of electronic records, including all back-up copies.

When sorting records, the DPO and their team will:

- Review all records held within the school as soon as notification of closure is received, including paper and electronic records.
- Use the retention periods outlined in this policy to categorise the records into those to be destroyed and those that need to be transferred.
- Contact the relevant body to make arrangements for the safe and secure transfer of records.
- Sort, list and box the records in preparation for the transfer, ensuring records are stored in a safe environment whilst awaiting collection.
- Plan how the disposal of records will be undertaken.
- Sort expired records in readiness for confidential disposal, ensuring they are stored securely whilst awaiting disposal.

All forms of storage will be completely emptied before the building is vacated or before disposal. Records awaiting transfer will be held in a secure area. The identity of any third parties collecting or disposing of records will be checked and a collection receipt will be obtained.

Records will be disposed of in line with the '[Disposal of data](#)' section of this policy. Electronic records will be either transferred to the new body or deleted. All ICT equipment will be decommissioned in accordance with the school's ICT Acceptable Use Policy.

No records will be left behind once the school building is vacated.
